Specialists in multi-functional inflatable platforms

NautiBuoy

Designed by yachtsmen, for yachtsmen

Because our platforms have been designed by yachtsmen for yachtsmen, we understand the finer details of maintaining your yacht.

Available in four different sizes, the NautiBuoy Marine Platform is stable, simple to manoeuvre and easy to lift from the water. These are the essential features but we didn't stop there. From stainless steel D-rings to soft handles that don't scratch the boat or mark the deck, we've thought it all through.

One of the key features is our unique Air Toggle System, which as well as allowing platforms to be linked in multiple configurations, provide 2nd and 3rd air chambers for safety.

Leisure packages enable you to adapt the platform so you can relax with headrests and comfort seats. There's also a 4-step ladder that makes getting out of the water a breeze.

Constructed from Orca CR /CR dropstitch and Orca CSM hypalon known for its outstanding strength and durability, our platforms are handmade to the highest standard. There's been no compromise on quality – we've obsessed over every minute detail to bring you a product that will exceed your expectations.

INFLATION TABLE – METRIC

Platform name	No of users	Inflated dimensions (metric)	Inflation/ deflation time to 250mb	Stowage dimensions (metric)	Weight (kgs)	Max load (kgs)
Arctic 375	4	2.5m x 1.5m x 20cm	1m 30 secs	155cm x 30cm x 30cm	22	410
Southern 525	5	3.5m x 1.5m x 20cm	1m 40 secs	165cm x 32cm x 32cm	32	480
Atlantic 675	7	4.5m x 1.5m x 20cm	2m 40 secs	165cm x 35cm x 35cm	36	600
Pacific 800	8	4m x 2m x 20cm	3m 30 secs	220cm x 35cm x 35cm	40	700

INFLATION TABLE – IMPERIAL

Platform name	No of users	Inflated dimensions (imperial)	Inflation/ deflation time to 3.6psi	Stowage dimensions (imperial)	Weight (lbs)	Max load (lbs)
Arctic 375	4	8ft 2" x 4ft 11" x 8"	1m 30 secs	5ft 1" x 12" x 12"	48	903
Southern 525	5	11ft 5.5" x 4ft 11" x 8"	1m 40 secs	5ft 5" x 1ft x 1ft	70	1058
Atlantic 675	7	14ft 9" x 4ft 11" x 8"	2m 40 secs	5ft 5" x 1ft 2" x 1ft 2"	78	1322
Pacific 800	8	13ft 1" x 6ft 6" x 8"	3m 30 secs	7ft 2" x 1ft 2" x 1ft 2"	88	1543

“ I’m not sure how we survived before the NautiBuoy came into our lives. It’s become part of the yacht’s procedure when berthing. Washdowns and hull detailing have never been so easy and it’s never long until we get another yacht in the marina asking to borrow it. ”

Andy Sheltrum,
Captain, Bliss

Maintenance

A tender free solution

The NautiBuoy Marine platform easily converts into a maintenance tool by simply adding the lightweight, non-skid, fitted protection cover. It can be inflated single-handedly and launched anywhere in less than five minutes, providing instant access to the waterline. Our unique ballast bag system provides excellent stability in the water and enables easy removal after use.

With the addition of the collapsible velcro bottom buckets and hose holders available in our maintenance pack, your crew can work efficiently around the topsides without losing equipment over the side.

Leisure

Unparalleled luxury at water level

Covered with a non-skid teak effect soft surface and made incredibly stable by our unique ballast system, the NautiBuoy Marine Platform offers a new freedom from the confines of the yacht. Not only is it a fantastic swim platform, but also an ideal base to enjoy a multitude of watersports and activities.

A great space for sunbathing and relaxation, accessories including comfort seats and faux leather headrests are available to optimise your guests experience.

Endless possibilities

Unique Air Toggle linking system

Our Air Toggle technology enables multiple platforms to be linked in a variety of ways, creating anything from jet-ski docks to longer pontoons and walkways.

In addition, the NautiBuoy Marine Platform also helps protect the yacht against damage to the transom from jet-skis or other equipment.

For yachts with higher transoms (up to 140cm above the waterline), we have specially designed transom bumpers that work in conjunction with our platforms.
