# First Impressions Matter...

The Superyacht CV Company is here to assist you in making a stellar first impression via your CV or digital profile, highlighting your best attributes to a potential employer.

Whether you are an industry greenhorn looking to embark on your first yacht or an experienced crew member looking to take your next step on the career ladder, your CV is your marketing and sales tool.

We work with enthusiastic individuals looking to improve their employment opportunities within the yachting industry by helping them identify their key skills and presenting them in a way that inspires, impresses and builds confidence in their abilities.

# CV & LinkedIn Review

Have you completed your CV or LinkedIn profile but would like it checked over by an industry professional? We will review both your CV and digital profile and provide you with suggested edits to enhance both.

You know how important your CV is, but did you know that your LinkedIn profile is more often than not your digital introduction? It therefore needs to showcase your skills and portray you as a polished professional.

In today's technological world it is important to have a professional digital presence. If you are looking for a new position you are probably being googled by a prospective employer.

## Chef Menus

If you are working as a yacht chef or hoping to step on board as a chef for the first time, it is key to provide a well-presented menu along with photographs of your dishes.

We can assist with the layout and presentation of menus.

Every chef is unique and their creativity should be displayed in a way that best reflects them and their culinary flair.

# CV Coaching

Do you want to write your own CV? At Superyacht CV we encourage you to do this.

One of the main challenges for someone trying to write their own CV is the ability to identify their skills and achievements, which is why you may need a third party to help you.

With this package we will coach you through the entire process of writing and creating your own CV masterpiece. This can be delivered, either virtually or face-to-face depending on location. Once completed we will proofread the final draft for you.

# CV Writing

Competition is fierce and a well-presented and thoughtful CV will put you ahead of the rest. It's not only about how eye-catching it is visually, but how well you can communicate yourself and your attributes on paper.

It's never easy to write about yourself, especially when you are trying to produce a document which will best market your skillset to a potential employer; that's why we are here to help you.

Send your current CV over and we will reformat it to meet yachting industry standards, while making edits and improvements to highlight your key skills and areas of expertise.
